## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 8/5/2005 has been entered.

### ***Claim Objections***

2. Claims 6-21 are objected to because they are not in a format that is consistent with conventional US practice regarding apparatus claims. The claims are not written such that they positively recite structural limitations, but instead recite functional recitation with the structural language passively stated. Elements a) – d) are not structural “features”, as suggested by the preamble. Appropriate correction is requested.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 6-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1731

5. The claims recite the limitation "the region" in line 4 of the independent claims. There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

6. Claims 6-21 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, and the objections set forth in this Office action.
